

Nardi Atlantic

Breathing Air Compressor

A great compressor for personal use for filling either Scuba or Paintball tanks.

Electric Model Pictured

- 3.5 Cubic feet per minute output
- 4700 PSI
- 3 HP electric motor or 6 HP gasoline engine
- Rings on all stages
- 2300 RPM
- 23"L x 17.5"H x 15"W
- Approximately 87 pounds

Electric Motor price = \$3,195.00
Gasoline Engine price = \$3,250.00
(plus shipping)

SPECIFICATIONS

COMPRESSOR

The compressor block is 4 stage with rings on all stages, air cooled, has inner and after coolers, inner stage moisture separators, relief valve on final stage, and a multi-blade fly wheel to provide high velocity cooling over the compressor.

PURIFICATION

Its 3,000 Cu. Ft. filtration system is designed to operate at 5000-PSI working pressure with a 4:1 safety factor. Activated charcoal and a carbon monoxide catalyst remove contaminants to provide CGA Grade "E" breathing air.

ELECTRICAL REQUIREMENTS

Electric motor compressor requires a minimum 30 Amp, 230 Volt connection for single-phase operation.
